UN CLIMATE CHANGE CONFERENCE UK 2021

IN PARTNERSHIP WITH ITALY

The event will bring together international speakers and audience members from local and city governments, central governments, research communities, and civil society to discuss climate justice and the importance of taking account of the cumulative risks created by conditions of urban informality, inequality and climate vulnerability in developing effective responses to climate change. We will identify priorities for action and the role that researchers, civil society actors, city governments and policy makers can play in strengthening local action for sustainable climate justice.

UK Research
and Innovation

Contributors:

Yvonne Aki-Sawyer, Mayor, Freetown, Sierra Leone

Joanes Atela, Convener Africa Research and Impact Network, Director Partnerships African Centre for Technology Studies, Kenya

Harriet Bulkeley, Professor of Geography, Durham University, UK.

Vanessa Castan Broto, Professor of Climate Urbanism, University of Sheffield, UK

Sonia Dias, Waste Specialist, WIEGO, Brazil

David Dodman, Director, Human Settlements, International Institute for Environment and Development, UK

Anibal Gaviria, Governor Antioquia, Colombia President, Cities Alliance

Heike Henn, Deputy Director General, Federal Ministry for Economic Cooperation and Development, Germany

Rubbina Karruna, Regional Cities & Infrastructure Adviser, Foreign, Commonwealth and Development Office, UK

Rose Molokoane, Vice-President Slum Dwellers International, South Africa

Greg Munro, Director, Cities Alliance (Chair)

Aromar Revi, Director, Indian Institute for Human Settlements, India

Emilia Saiz, Secretary General, UCLG on behalf of the Global Taskforce of Local and Regional Governments

The event will be held simultaneously in person and online, with an interactive panel discussion. It will offer an opportunity to help shape critical policy and research priorities for addressing climate change equitably in cities - where informality and inequality are the reality. The event will help shape priorities for research and local action to ensure better chances of achieving urban climate justice.
