Heide Hackmann

Table of Contents

Part 1 Main accomplishments

Part 2 Main conclusions

Main accomplishments

During the first 3 years of the ISC's existence, we have:

1. Put in place an efficient and energetic governance system
2. Developed and implemented forward-looking strategies, policies and work plans focused on operationalizing the ISC vision and mission
3. Invested in connecting and working much more closely with our members
4. Built an ambitious, relevant, and responsive portfolio of scientific activities that address major contemporary global challenges for both science and society

5. Expanded our science, policy and funding networks, developed new, action-oriented partnerships and worked to reduce further fragmentation of effort at the global level
6. Ramped up our communications and outreach capacity, increasing the visibility of the work of the ISC and its members amongst multi-stakeholder audiences across the world
7. Professionalized our management and organizational support function
8. Maintained operational cohesion and increased levels of productivity despite the disruption of a global pandemic

Main conclusions

The ISC today:

1. A new organization
2. A learning organization
3. An adaptive organization
4. A member-engaged organization
5. A leading organization
