COP26 call to action to researchers, innovators & engineers on the Glasgow Commitments

The UK hosted the 26th UN Climate Change Conference of the Parties (COP26) in Glasgow in November 2021. The summit brought together parties and non-state actors to accelerate action towards the goals of the Paris Agreement.

The COP26 Presidency has produced a call to action - *Knowledge for Glasgow* - to highlight opportunities for researchers, innovators and engineers to support the implementation of commitments made at COP26 under the [Glasgow Climate Pact](#).

We would like to invite you to join the official launch of *Knowledge for Glasgow* and discuss how to take its recommendations forward. This virtual webinar will take place on 30 March 2022, 13:30-14:30 GMT. Please sign up via [eventbrite](#).
