## International Science Council

**Global Knowledge Dialogue: Asia and the Pacific**  
5-6 October 2023 | Kuala Lumpur | Malaysia

Dear ISC Member,

We hope this message finds you well. We are pleased to extend this invitation to you and other persons affiliated with your organization to participate in the [Global Knowledge Dialogue for Asia and the Pacific](#), hosted by the International Science Council (ISC), the Academy of Sciences Malaysia (ASM) and the ISC Regional Focal Point for Asia and the Pacific at the Australian Academy of Science

The Global Knowledge Dialogue (GKD) is a unique platform that brings together leading experts, researchers, and policymakers from diverse fields to exchange ideas, insights, and experiences on pressing global challenges. The GDK for Asia and the Pacific promises to be an intellectually stimulating event with an array of engaging discussions and interactive sessions.

The Global Knowledge Dialogue Asia-Pacific will be held on **6 October 2023** at the [Kuala Lumpur Convention Centre](#) during the [2023 International Greentech & Eco Products Exhibition & Conference](#) (IGEM), with pre-events held on 5 October.

Through dynamic panel discussions, workshops, and networking opportunities, you will have the chance to share your valuable insights, learn from esteemed thought leaders, and forge meaningful connections with fellow participants. The outcomes from the various sessions will inform programs and activities of the ISC Regional Focal Point for Asia and the Pacific and help to identify regional priorities, opportunities, and challenges with a particular focus on how we fund and undertake science for sustainability now and into the future.

Please register by 15 September via this link: <https://council.science/events/gkd-asia-pacific/>.

We look forward to welcoming you to the Global Knowledge Dialogue.

If you have any questions or require further information, please do not hesitate to contact [Gabriela Ivan](#), Membership Development Officer or [Dr Petra Lundgren](#), Director ISC RFP-AP.

Best regards,

**Professor Chennupati Jagadish AC**  
President, Australian Academy of Science

**Academician Datuk Dr Tengku Mohd Azzman Shariffadeen FASc**  
President, Academy of Sciences Malaysia  
Science, Technology & Innovation Advisor to the Nation

---

The International Science Council (ISC) is a non-governmental organization with a unique global membership that brings together 40 international scientific Unions and Associations and over 140 national and regional scientific organizations including Academies and Research Councils
