SCIENCE DIPLOMACY IN THE LAC REGION, AND THE REGIONAL PRESENCE OF THE INTERNATIONAL SCIENCE COUNCIL

Dr. Carolina Santacruz
International Science Council

Keynote lecture 5: December 14, 2024 10:00-11:00 h

Link: <https://www.youtube.com/watch?v=g86HY8IRf8I>

Carolina Santacruz-Perez is Science Officer of the Regional Focal Point for Latin America and the Caribbean of the International Science Council since 2022. She is Industrial Microbiologist, specialist in Nanotechnology, MSc in Biotechnology, PhD in Biophysics, 4 post-doctorates in multidisciplinary areas such as Microbiology, Protein Crystallography, Biochemistry, Molecular/Cellular/Structural Biology, Photochemistry and Bioinformatics. 20 years of experience as a scientist in the only particle accelerator ring in Latin America (LNLs at CNPEM). Member of the Steering Committee of the Latin America and the Caribbean Chapter of INGSA (International Network for Government Science Advice). Member of the Regional Scientific and Advisory Group within the Regional Office for the Americas and the Caribbean of the United Nations Office for Disaster Risk Reduction (UNDRR). Chair of the OWSD – Colombian chapter (Organization for Women in Science for the Developing World). She received scholarships in Brazil from TWAS, CNPq, CAPES, FAPESP and from the Center for Bio-membrane Research at Stockholm University. Served as Scientific Advisor to the Research Support Foundation of the State of São Paulo (FAPESP) and to National Secretariat of Science, Technology and Innovation (SENACYT) in Panama. Member of the Latin American Research Advisory Council. Member of the eLife Global South Committee for Open Science (GSC).

Theoretical-practical workshop: “Governmental Scientific Advice in Government Decision-Making”

Audience: *National Academies of Science in the LAC Region*

This workshop designed for academics, scientists, researchers and decision-makers, will address the role of science in public policy formulation. With a combination of theory and practice, participants will work on case studies and simulation exercises to acquire concrete tools that allow them to integrate science into government decision-making.
