# Young Academies and EMCR

In 2022, the **ISC invited Young Academies and Associations to apply for affiliate membership** in the spirit of promoting the participation of Early- And Mid-Career Researchers (EMCR) in its activities and governance, thereby enlarging opportunities for ECR to be represented in international science. **Seventeen new Members** joined the ISC in 2023.

The ISC launched in 2023 an **EMCR Forum** which convenes young scientific groups within a space for exchange, learning and collaboration.

## NEW ISC - CAST EMCR INITIATIVE

In 2024, the ISC and the China Association for Science and Technology (CAST) launched of a transformative project, **“Empowering and Elevating the Voice of Early- and Mid-Career Researchers in International Science and Global Policy Processes.”**

The project underscores the critical importance of engaging young researchers in global science and policy dialogues, particularly on pivotal issues such as planetary sustainability, climate resilience, and science diplomacy. Through **leadership training, scientific collaboration, and direct engagement in global policy processes**, this initiative aims to expand the perspectives, knowledge, and influence of a diverse group of young scientists.
